PROFESSIONAL SUMMARY

Supply chain and operations professional with **4+ years** of experience supporting **manufacturing** and **distribution operations**. I bring strong working knowledge of **SAP modules** along with hands-on experience in ERP and WMS systems, with active preparation toward **SAP EWM certification**. I have commitment towards improving operational efficiency through data analysis, process optimization, and cross-functional collaboration. With my honest approach and strong work ethics, I deliver all necessary hard work required towards the success of the organization.

WORK EXPERIENCE

Plant Supervisor, Daniels Health (Contract) 🌐 08/2025 – Present
Leading a team of 20+ associates. Responsible for managing inventory, writing SOP's, creating plant metrics on weekly basis and defining goal for the month. Carrying out safety audits, compliance reports and engaging with stakeholders to discuss potential improvements. Collaborating with Customer service, Transportation and maintenance department to make sure we hit the plant KPI's.

Production Supervisor, Smith Induspac 🌐 03/2024 – 08/2025
Lead a team of operators and associates on corrugated and packaging lines, driving daily output and maintaining workflow efficiency. Reduce downtime by 15% through proactive planning and maintenance coordination. Apply Lean principles to minimize waste and improve resource utilization. Managing ERP for inventory and keeping track of following modules: warehouse operations, logistics, and supply chain

Distribution Center Team Lead, Amazon 🌐 11/2022 – 01/2024
Managed 15-20 associates in a high-volume delivery station, ensuring smooth inbound and outbound operations. Boosted process efficiency by 10% through Lean initiatives and improved labor allocation. Maintained inventory accuracy, streamlined returns handling, and supported data-driven decision-making. Upheld safety protocols and ISO compliance across all workflows.
• EMPLOYEE OF THE MONTH 3 times in year 2023 and listed among TOP 1% WORKING AMAZONIANS.

Operations Specialist Co-Op, DNA Angels 🌐 09/2023 – 12/2023
Prepared end-user training materials, conducted training sessions, and provided ongoing support to drive user adoption and change management. Acted as a key liaison between business stakeholders and IT teams, ensuring clear communication and alignment throughout project phases. Managed multiple priorities in a dynamic environment while maintaining strong documentation, reporting, and presentation standards.
