PROFESSIONAL SUMMARY

Supply chain and operations professional with **4+ years** of experience supporting **manufacturing** and **distribution operations**. I bring strong working knowledge of **SAP modules** along with hands-on experience in ERP and WMS systems, with active preparation toward **SAP EWM certification**. I have commitment towards improving operational efficiency through data analysis, process optimization, and cross-functional collaboration. With my honest approach and strong work ethics, I deliver all necessary hard work required towards the success of the organization.

WORK EXPERIENCE

Plant Supervisor, Daniels Health (Contract) ⓘ 08/2025 – Present
Leading a team of 20+ associates. Responsible for managing inventory, writing SOP's, creating plant metrics on weekly basis and defining goal for the month. Carrying out safety audits, compliance reports and engaging with stakeholders to discuss potential improvements. Collaborating with Customer service, Transportation and maintenance department to make sure we hit the plant KPI's.

Production Supervisor, Smith Induspac ⓘ 03/2024 – 08/2025
Lead a team of operators and associates on corrugated and packaging lines, driving daily output and maintaining workflow efficiency. Reduce downtime by 15% through proactive planning and maintenance coordination. Apply Lean principles to minimize waste and improve resource utilization. Monitor KPIs, enforce safety and quality standards, and implement a QR-based Visual SOP system to reduce errors and improve cross-shift consistency.

Distribution Center Team Lead, Amazon ⓘ 11/2022 – 01/2024
Managed 15-20 associates in a high-volume delivery station, ensuring smooth inbound and outbound operations. Boosted process efficiency by 10% through Lean initiatives and improved labor allocation. Maintained inventory accuracy, streamlined returns handling, and supported data-driven decision-making. Upheld safety protocols and ISO compliance across all workflows.
• EMPLOYEE OF THE MONTH 3 times in year 2023 and listed among TOP 1% WORKING AMAZONIANS.

Operations Specialist Co-Op, DNA Angels ⓘ 09/2023 – 12/2023
Drove process optimization initiatives that improved operational efficiency by 15% through streamlined workflows and reduced bottlenecks. Coordinated resources to enable effective collaboration between entrepreneurs and investors, maximizing the value of capital, expertise, and mentorship. Leveraged data analysis and reporting to track performance, support informed investment decisions, and drive continuous improvement. Proactively identified risks and implemented mitigation strategies to strengthen process efficiency and long-term operational sustainability.

RECENT PROJECTS

Hands-Free Scanning Optimization, Daniels Health ⓘ

High-Efficiency Production Workflow Redesign, Smith Induspac ⓘ

Process Standardization & Visual SOP Implementation, Smith Induspac ⓘ

EDUCATION

Master of Management, Trent University ⓘ 09/2022 – 01/2024
• Specialized/Focused area: Supply Chain Management

Bachelor of Technology, Charusat University ⓘ 07/2018 – 07/2022
• Specialized/Focused area: Electronics & Communication

CERTIFICATES

Lean Six Sigma Green Belt

Power BI Certified

Advanced Excel Certification

SAP EWM Certification
In-Progress

SKILLS

Process Standardization & SOP Implementation • ERP Systems Proficiency (SAP, Netsuite, Encore) •

Lean Manufacturing & Continuous Improvement (CI) • WMS & Warehouse Coordination • Inventory Control & Materials Management •

Quality Assurance & Process Audits • Data-Driven Decision Making • Strong Communication & Conflict Resolution •

Problem Solving & Root Cause Analysis
